Diversity, Equity and Inclusion (DEI); and
Strong Institutions Ranking

As we delve into the realms of diversity, equity, and inclusion (DEI) alongside the fortification of strong institutions (SI), we embark on a journey that transcends mere numbers and statistics. The DEI & SI Rankings 2024 encapsulate not just the culmination of data but the narrative of progress, the testament of resilience, and the commitment to a future where every voice is heard and every institution stands firm on the pillars of equity and justice.

This report represents the collective effort of academicians, institutions, private organizations, and communities dedicated to fostering a world where diversity is celebrated, equity is non-negotiable, and inclusion is the cornerstone of progress. As stewards of this vital conversation, we are honored to present this comprehensive summary, a testament to the strides made and the challenges yet to overcome.

In these pages, you will find not just numbers and rankings but stories of transformation, accounts of perseverance, and blueprints for a more equitable future. From the boardrooms to the grassroots, from policy corridors to community centers, the pursuit of diversity, equity, and inclusion knows no bounds. Through rigorous analysis, meticulous data collection, and robust methodologies, we have endeavored to shed light on both the triumphs and the gaps that define our collective journey towards a more just society.

We acknowledge with gratitude the invaluable contributions of researchers, advocates, policymakers, and practitioners who have lent their expertise, passion, and commitment to this endeavor. It is through their dedication and collaboration that we have been able to chart a course towards a future where strong institutions are not just a measure of stability but a beacon of hope for generations to come.

As we navigate the complexities of the present moment and chart a course for the future, let this report serve as a compass, guiding us towards a world where diversity is not just embraced but celebrated, where equity is not just a goal but a reality, and where inclusion is not just an ideal but a fundamental human right.

Together, let us continue to strive for a future where every institution stands strong, every voice is valued, and every individual is empowered to thrive.

The background is an abstract composition of warm, textured brushstrokes. The colors range from light beige and cream at the top to deep, rich reds and maroons at the bottom. The strokes are thick and directional, creating a sense of movement and depth. The overall effect is organic and artistic, reminiscent of a painterly style.

DEI & SI Rankings 2024 – Assessment Criteria

The methodology employed in the "DEI & SI Rankings" by GU Rankings involves a multifaceted approach to assess universities worldwide. The rankings are based on the following key components:

DEI Assessment Criteria:

- **Diversity:** Evaluation of the diversity among students, faculty, and staff, including factors such as gender, ethnicity, socioeconomic background, and international representation.
- **Equity:** Examination of policies and practices aimed at ensuring equitable access to resources, opportunities, and support services for all members of the university community.
- **Inclusion:** Assessment of efforts to create a welcoming and inclusive environment where all individuals feel valued, respected, and empowered to thrive.

SI Assessment Criteria:

- **Governance:** Analysis of the university's governance structures, decision-making processes, and mechanisms for promoting transparency, accountability, and stakeholder participation.
- **Rule of Law:** Evaluation of adherence to principles of justice, fairness, and the rule of law within the university's operations and interactions with external stakeholders.
- **Access to Justice:** Assessment of accessibility and effectiveness of mechanisms for addressing grievances, conflicts, and ensuring access to justice for all members of the university community.

Through rigorous analysis and stakeholder engagement, GU Rankings aims to provide universities with actionable insights and incentives for continuous improvement in their efforts to promote institutional diversity, equity, and inclusion, and contribute to building strong institutions that are essential for achieving SDGs globally. By showcasing the importance of DEI and SI in higher education, the rankings raise awareness among university stakeholders, including students, faculty, staff, administrators, policymakers, and the general public. Increased awareness can lead to greater support for initiatives aimed at promoting diversity, equity, inclusion, and institutional strengthening within universities.
